Introducing the International Journal of Social Sciences, Management and Arts (IJSSMA)

Sonia Rathore

Editor-in-Chief, International Journal of Social Sciences, Management and Arts India

The **International Journal of Social Sciences, Management and Arts (IJSSMA)** is launched with the objective of providing an open, inclusive, and accessible platform for the publication of original scholarly and analytical work. In an increasingly interconnected world, the boundaries between social sciences, management studies, and the arts are becoming more fluid, making interdisciplinary dialogue more important than ever.

IJSSMA is founded on the belief that meaningful knowledge is not confined to a single discipline or institutional setting. The journal welcomes contributions from scholars, students, professionals, and independent writers who seek to engage critically with social realities, organizational practices, cultural expressions, and artistic narratives. By encouraging diverse voices and perspectives, the journal aims to promote thoughtful discussion and knowledge-sharing across academic and non-academic communities.

As an independent, online journal, IJSSMA is committed to ethical publishing practices, originality, and intellectual integrity. All submissions undergo editorial review to ensure relevance, clarity, and alignment with the journal's aims and scope. The journal publishes research articles, review papers, analytical essays, and interdisciplinary works that contribute constructively to ongoing academic and societal debates.

This inaugural issue marks the beginning of IJSSMA's journey as a space for dialogue, reflection, and innovation. The journal aspires to grow steadily, guided by transparency, inclusivity, and academic responsibility. We invite contributors from around the world to be part of this initiative and to help shape a vibrant and engaged scholarly community.

We look forward to your submissions and to building IJSSMA as a platform that values ideas, critical thinking, and the responsible dissemination of knowledge.
